PROFESSIONAL SUMMARY

Junior MERN Stack Developer with hands-on experience building full-stack and React-based web applications using JavaScript, React.js, Node.js, Express.js and MongoDB. Experienced in developing REST APIs, asynchronous API integrations, responsive user interfaces, Redux-based state management, session-based authentication and third-party service integrations. Strong foundation in reusable web development, MVC architecture, Git/GitHub and cross-device responsive design, with practical project and internship experience.

TECHNICAL SKILLS

Languages & Core Web	JavaScript (ES6+), HTML5, CSS3.
Frontend Development	React.js, Redux Toolkit, Tailwind CSS, Bootstrap, jQuery
Backend Development	Node.js, Express.js, RESTful APIs, MVC Architecture, Nodemailer, Multer
Databases	MongoDB, Mongoose ODM
APIs & Integrations	Gemini API, YouTube Data API, Razorpay Payment Gateway
Tools & Deployment	Git, GitHub, Firebase, Render, Vercel

PROJECTS

Elegance – Full-Stack E-Commerce Platform — [Live Demo](#) — [Github Repo](#)

- Built a full-stack e-commerce application using Node.js, Express.js, MongoDB, Mongoose, EJS, and JavaScript following MVC architecture.
- Implemented user authentication with session-based authorization and OTP-based email verification.
- Integrated Razorpay payments with backend order processing and payment verification.
- Developed an admin dashboard for product and stock management, offer pricing, sales analytics, and PDF/Excel report generation.
- Integrated AJAX-based workflows for dynamic product and order operations.

my-YouTube – React Video Streaming Application — [Live Demo](#) — [Github Repo](#)

- Built a responsive video platform using React and Vite, utilizing YouTube Data API for real-time video fetching .
- Implemented Redux Toolkit for state management, incorporating search auto-suggestions and query caching to reduce redundant API calls.
- Designed dynamic watch pages and optimized responsive views across mobile and desktop devices using Tailwind CSS.

my-Netflix – Netflix-Inspired Movie Streaming Appl with AI Recommendations — [Live Demo](#) — [Github Repo](#)

- Built a React-based movie streaming application integrated with Gemini API for natural-language recommendations.
- Configured automated build and deployment pipelines on Firebase Hosting.

EXPERIENCE

Web Developer Intern

Jun 2022 – Jan 2023

Xman Technology Solutions

- Developed responsive, client-facing web pages using HTML, CSS, and Bootstrap, improving cross-device UI consistency across target viewports.
- Collaborated with senior engineers to debug complex layout issues and optimize core web assets, reducing overall page load times.

Team Lead Assistant

April 2018 - Jan 2019

ZYUS Educare

- Coordinated project scheduling, task allocation, and deadline tracking for a team of 15 interns.

EDUCATION

B.Tech in Electronics and Communication, Government College of Engineering,Kannur

2017

Aggregate Mark : 71
